<http://www.kcrc-roads.com>

The data contained in this report has been compiled by the Traffic Services Department of the Kalamazoo County Road Commission. The report consists of counts on primary and local roads, with the exception of plat roads. The data was obtained using automatic traffic counting machines with either loop detectors or pneumatic road tubes across the roadway and represent the latest count for that location. Users are advised to use judgment in the use and application of this data, since these results are not adjusted for seasonal or other variations.
